To whom this may concern:

This letter is to certify that all product sold by Zeager Bros. Inc under the Trade name Woodcarpet® engineered wood fiber is tested by a certified laboratory to meet the Heavy Metal (Hazardous Metal) performance requirements of ASTM F 2075-04, Standard Specification for Engineered Wood Fiber for Use as a Playground Safety Surface Under and Around Playground Equipment. The test method and performance requirements of ASTM F2075-04 are taken directly from ASTM F 963 Consumer Safety Specification for Toy Safety. The performance requirements of ASTM F2075-04 exceed the Lead requirements of Consumer Product Safety Improvement Act of 2008 with requirements of less than 90ppm.

Copies of the test reports are available upon request.

Zeager Bros. Inc. is a participant in the IPEMA Surface Certification Program in which Woodcarpet is certified to ASTM F 2075-04 to meet the performance requirements for Hazardous Metals.

Sincerely,

Ted Illjes
