

Green Technology for
The Urban Environment

Roofscapes, Inc. Introduces Roofrug®

An innovative, low-cost solution for large-scale green roof installations

The Roofrug® Green Roof

- Low cost** Installed cost of \$8 - \$10 per square foot (including warranties and two years of maintenance)*
- Breakthrough design** Simple, efficient design that can be sustainably salvaged for re-use on another rooftop
- Lightweight profile** Excellent for retrofit situations and installations requiring little or no structural enhancement
- Durability & performance** Designed to insure long-term durability, minimal maintenance, and predictable stormwater control performance (using local climate information and design storm data)
- Quality installations** Long-term warranties against leaks and green roof failures
- Dedicated customer service** Installations by trained, experienced installers who comply with the rigorous Roofscapes, Inc. Quality Assurance and Maintenance Programs

Roofrug® Project Profile

- ✓ Structure does not exceed 3 stories
- ✓ Roof pitch does not exceed 1.5:12
- ✓ Direct accessibility to the building from at least one side
- ✓ At least 10,000 sf of contiguous green roof
- ✓ Available additional green roof dead load capacity of at least 20 psf

Founded in 1997 by Charlie Miller, P.E., Roofscapes, Inc. is a Philadelphia-based green roof design and installation firm with a nationwide Network of experienced green roof installers. Roofscapes, Inc. has been awarded nine design awards for its green roofs, including the elegant installation on Chicago City Hall. For more information about Roofscapes, Inc., please visit our website, www.roofmeadow.com, email us at info@roofmeadow.com, or call us at **215-247-8784**.

*Prices may vary subject to installation times, assembly upgrades (i.e., edging), and local labor costs.
